Amber Tang

Senior Product Designer

HealthSherpa • January 2025 — Present

Senior Product Designer II

- Designed experiences across HealthSherpa's agent platform, contributing to 4M enrollments through the Federal Marketplace
- Drove growth through research & design, increasing underutilized agent feature engagement by 300%
- Integrated design system components into Lovable & Claude, enabling live interactive prototyping across the team
- Improved new user activation flow, driving a 7% increase in referral program engagement

Calendly • November 2021 — January 2025

Senior Product Designer (Growth)

- Designed improvements across 5 high-value features, increasing adoption up to 106% and adding $2M+ ARR.
- Launched monetization experiments that boosted subscription purchases by 10% (+1,200 subscribers/mo)
- Led design and research for self-service pricing initiatives, contributing to multimillion-dollar annual recurring revenue across checkout, pricing, add-ons, volume pricing, and churn reporting
- Established reusable onboarding and paywall design patterns adopted across core product design pods

UKG • September 2020 — October 2021

Senior UI & UX Designer

- Led design for an NLP feedback analysis and coaching product; adopted by 15+ beta companies and awarded Top HR Product 2021
- Led research and design for a 0-to-1 Work Crafting web app, adopted by 2+ companies during its alpha launch
- Shaped product strategy to unify 10+ legacy tools into the next-generation Talent platform

Ultimate Software • January 2018 — August 2020

User Experience Designer • Associate User Experience Designer

- Designed 0-to-1 HR products across iOS, Android, and web, contributing to growth across 100+ payroll and talent development customers
- Led research and design for an engagement survey benchmark feature adopted by 500+ companies, plus three highly requested features for a legacy Compensation Management product
